HP 95LX 100LX 200LX 1000CX

"Thaddeus has got to have absolutely the best customer support in the business." — Don E. Weatherly

"I've used your company for purchases, repairs, upgrades, etc. You guys do a great job."
— Randy Anderson

We Buy, Refurbish, Upgrade, Repair and Sell the HP 200 LX

"Go for it. They are absolutely first rate. I have used one of their Used/Like-new 32 MB DoubleSpeed units for over a year."
–– Bob Newins

...STILL the most practical PDA!

INSIDE:

We also Buy and Sell **HP Jornada 720 & 728** Handheld PCs

HP 200LXs
Demand is STRONG

HP Engineering
+ Thaddeus Computing Quality Control
= A GREAT PALMTOP FOR YOU!

POWERFUL: The HP 200LX runs MS DOS software and comes with over 16 built-in apps. These include:

Memo Editor	Appointment Book
Phone Book	Pocket Quicken
HP Financial Calculator	Database
Notetaker	MS DOS 5.0
ToDo Manager	2 Games
Lotus 1-2-3	World Time
Data Communications	Macro Manager
Filer	Laplink Remote

AFFORDABLE: See pricing. Our refurbished palmtops are tested, cleaned, warranteed and upgraded.

MOBILE: The HP Palmtop fits in your pocket. With instant on, it can be used anytime, anywhere, and run for weeks on standard AA batteries.

EASY-TO-USE: One-button-access to built-in programs (no installation); simple keystrokes for date, time, cut, copy, paste; multiple applications can remain open simultaneously; exceptionally stable operating environment.

TOP-QUALITY: Hewlett-Packard quality backed by Thaddeus Computing warranty.

PRACTICAL: Even though HP no longer manufacturers the HP 200LX, these palmtops remain popular. Their size, built-in applications, DOS compatibility, and low-power consumption using 2 AA batteries makes them ideal units for many individuals and companies.

Given the nature of the market, we cannot predict if and when we have them in stock. To check on availability, go to our Web site or email us.

OPTIONAL MODELS: The **HP95LX** was the first MS-DOS based palmtop PC by HP, introduced in 1991. It has MS-DOS 3.3 in ROM along with PIM applications. Its processor runs at 5.37 MHz.

The **HP 100LX** was introduced in 1993 and the **HP 200LX** in 1995. Both have MS-DOS 5.0. The main differences between them are that the 200LX has Pocket Quicken built-in as an additional application, and it can be upgraded up to 64MB of memory. Both have a processor that runs at 7.91 MHz and can be upgraded up to 15.8 MHz (DoubleSpeed).

The **HP 1000CX** is basically identical to the 200LX, except for its lack of any ROM built-in software, except MS-DOS 5.0, some device drivers, and LapLink software.
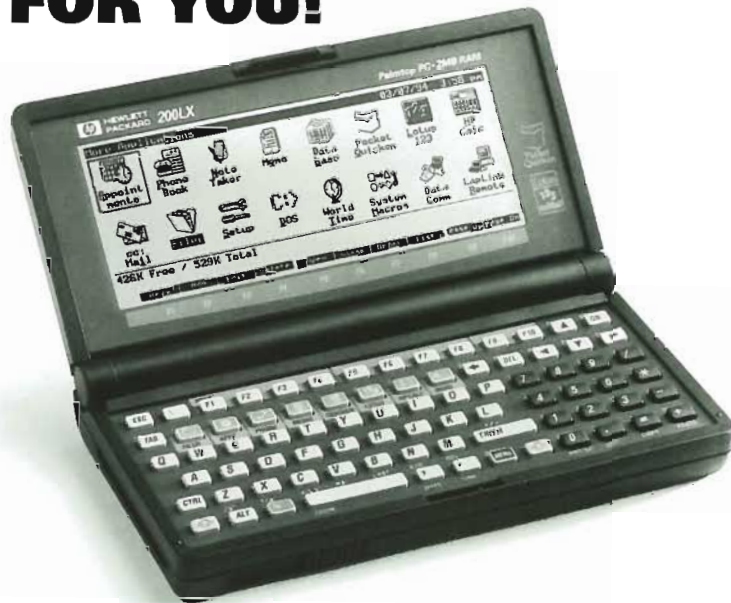

"It's there when I need it. I'm able to accomplish real work while sitting in the yard, down by the lake, or on trips."
— Fred Kaufman

"I can compute anywhere, anytime making it more usable than a pricey laptop."
— Edward A. Caine

"The Palmtop really is more like a Swiss Army knife than anything else. You can depend on it to help you out of a hairy situation."
— Richard Liu

"Wow, is that thing fast! And all that memory! I highly recommend the Thaddeus Palmtops for anyone thinking of upgrading"
— Robert J. Vondra

"Take heart! The speed upgrade is as nearly bullet proof as anything I have ever used. I have NEVER had a problem related to speed change."
— Lynn M. Cavendish

"I got my upgraded LX Monday (earlier than I expected) and the difference is AMAZING. Please thank all who had a hand in the transformation and thanks so much for the fixes above and beyond the memory upgrade. Needless to say you have my business for life"
— Paul Yarnell

WHY AN UPGRADED PALMTOP?

1. Speed
You'll find almost all palmtop operations from Lotus calculations to Phone book searches operate twice as fast. Also, key data and applications can be run from the much faster internal C drive than from a flash card.

2. Frees PC card slot
You can use the flash card slot for a modem, network card, parallel port card, or more data storage space. Or don't use the slot at all. Store all key software and data right on 200LX.

3. Switching between programs faster
Use Software Carousel or Super Software Carousel on the internal drive and switch quickly between DOS applications and built-in applications.

4. Eliminate "Out of Memory" errors
Use Software Carousel to set up several sessions of built-in applications. That way you can have, for example, HPCalc and memory hog 1-2-3 running in one session and Phone book in another.

5. Convenience and ease-of-use
It is much easier and more efficient to have frequently used software and data in one place, as if built-in to the palmtop. Backups are easy.

LIKE-NEW
These HP 200LXs were never used, but no longer have the original packaging or manuals.

FREE 1-year warranty
Extend to two years for $50

LIKE-NEW
with a superficial cosmetic flaw
These HP 200LXs are from the same group as "LIKE-NEW" but have a small crack in the keyboard frame on the back side of the palmtop. This flaw does not affect the operation of the palmtop nor will it cause any problems in opening or closing the case top.
FREE 1-year warranty
Extend to two years: $50 #1X2W

USED
These HP 200LXs, 100LXs, 95LXs and 1000CXs will meet or exceed your expectations. We buy a lot of used palmtops, but only resell the best. The others we use to salvage parts for our repair business. We maintain high standards for the used palmtops we resell.

FREE 90-day warranty
Extend to 1 year: $25 #1YRW
Extend to 2 years: $75 #2YRW

DON'T TRASH IT... REPAIR IT!

"Sent my HP 200LX in for repair and upgrade. BOY! YOU PEOPLE AT THADDEUS ARE THE GREATEST. Can't get better service anywhere!" — Bob Elliott, Jr.

"Absolutely first class service. I've never dealt with a better company!" — Tony Hutchins

"Thanks for providing such outstanding service to the HPLX community." — Brian McIlvaine

"Do not hesitate--send it in now!" After Thaddeus repairs your machine, it will be like getting a new toy! Same for a double speed upgrade and Software Carousel." — George Coleman

Jamie Snyder (front) and Jon Miller. Our Tech Crew is second to none!

TIPS FROM OUR TECHS:

Backup frequently! When a palmtop freezes up or the batteries die all information is lost and cannot be recovered. Plug your palmtop in with an AC adaptor when changing batteries. If you do not have an adapter, change the backup battery first and then the two AA batteries.

If your palmtop is dead (even after you change batteries), it doesn't mean you need it repaired. First try a softboot, (CTRL-ALT-DEL). If that doesn't work, perform a hard reboot (CTRL-leftSHIFT-ON), and answer N to initialize RAM disk. This could wipe out all information on the palmtop. If this doesn't work, take out the two AA batteries and the backup battery and let it set for 15 minutes, then insert new batteries and do another hard reboot. If this fails to bring it back to life, you will need to send it in for repair.

When installing programs that load their own config.sys file on a doublespeed palmtop, be sure the config.sys contains the line DEVICE=C:\SPD31.EXE. Without this line, and without spd31.exe residing on the C drive, your screen will appear garbled or right justified.

We do not repair units which are 100% ruined, with no salvageable parts.

If your palmtop has gotten wet or been exposed to moisture, let it dry at least one day before trying to turn it on.

If you decide to run the tests of your palmtop, do not run the "Plug-in RAM card" test, it will corrupt the data on the card.

IMPORTANT!

Upgrade and repair **ERASES ALL DATA**, so be sure to do a complete back-up before shipping. Use a trackable method of shipping. Please include daytime contact info in case we have questions.

Repair customers, be sure to give us a description of the problem. Upgrade customers, tell us the upgrade you wish.

Non-U.S. customers: write "Used Equipment For Repair" on your shipping container.

Ship to: Thaddeus Computing
          110 North Court

SHIPPING:
U.S. $9.50 each.   Non-U.S. $35.00 each.

OUTSIDE THE U.S.

Brainstorm at 90mph with *The Idea Generator*.

BONUS:
The Art of Creative Thinking

3 business productivity tools plus Bonus Creativity Book for the price of 1...

Creativity Bundle $47.97

Personal Food Analyst

Your Palmtop can help you lose weight, eat healthier, and increase your energy level!

1. Monitors and analyzes your food intake for calories, cholesterol, fats, proteins, carbohydrates, salts – for a total of 27 nutrients

2. Shows you how much you should be eating based on your weight goals, gender, and physical activity level

3. Built-in database of over 4000 foods used by USDA, hospitals, and universities

PFA is easy to use professional nutritional software designed for the Palmtop

Personal Food Analyst comes on a ROM card. It was designed for use on the HP 95LX and originally retailed for $149 and later $89. The easy-to-use program works well on the 100LX and 200LX. The program can be run from the ROM card. Alternatively, the program can be copied to and run from the C drive or another flash card.

From The HP Palmtop Paper...

"It's incredible what I thought was low fat until I entered it into PFA! ... It's also great for frequent travelers since it has many common restaurant items in its food database. I find it well worth the $89."

Personal Food Analyst...$11.97

implement   n. ('Ymplĭmănt)
    1.  a piece of equipment; tool or utensil: gardening implements.
    2.  something used to achieve a purpose; agent.
  vb. ('Ymplĭ·mént)  (tr. )
    3.  to carry out; put into action; perform: to implement a plan.
    4.  Rare. to supply with tools.
    5.  Archaic. to complete, satisfy, or fulfil.
    [C17: from Late Latin implementum, literally: a filling up, from
    Latin implere to fill up, satisfy, fulfil]

DEFINITIONS let us search the dictionary for all occurences of a word in the dictionary, in this case "mathematics". Although a bit slow on the Palmtop, you can also do boolean searches such as (french AND composer). **WILDCARD** lets you search for the word. For example: l??a (you remember the "l" and "a" is four letter word for Italian currency), *ntr* (all words containing "ntr"). Scrabble players and word puzzlers will appreciate the **ANAGRAM** feature. In addition, a history of words looked up in a session is easily accessible for backtracking.

"I'm a translator. I strongly recommend these Harper Collins products to anyone in the market for good Palmtop dictionaries."

—Tony D. Guzewicz, 74722,421@compuserve.com

"I love them. Nothing like being able to get a definition or confirm the spelling no matter where I am." —S. Todd, 70312.462@compuserve.com

---

For Your Palmtop!

Translation always accessible!

Multilingual Dictionary

Quick & accurate translations anytime!

German • French • Spanish • Italian

English to and from Spanish, French, German or Italian: Install any or all of the eight dictionaries onto your Palmtop. One dictionary takes about 800K; all eight take less than 6 megabytes. Each dictionary pair contains over 75,000 references and 110,000 translations.

QUICK/ACCURATE TRANSLATIONS!

Near matching: Looks up the closest spelling of the word
Meanings: Signposted for accurate translation
Minimal typing: Scrolls through the wordlist as you type each letter
Wildcard search: * and ? finds words when you don't know the spelling
Easy switching: Between all dictionaries
History: Displays recent lookups
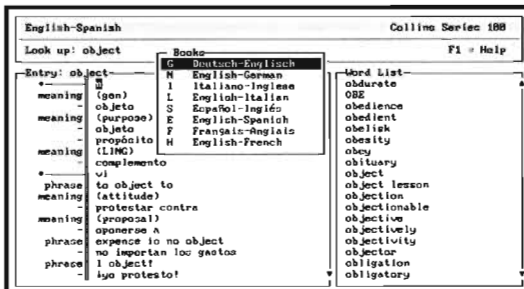

Word List feature means little typing. Type a few letters and select. Meaning chart and phrases let you choose correct word. Switch between dictionaries at any time.

"I used a couple of translation products on my 200LX. S100 I still like best. You can install it on the desktop as a Windows product and you can install it as a DOS version. It is easy to use. I run one Software Carousel session with S100, so it is always available. You should try it, it is worthwhile."

—Helmuth Guenther
100143.2451@compuserve.com

"Absolutely awesome. I use the Spanish to English and English to Spanish constantly. Highest recommendation."

—Patrick Campbell
75557.726@compuserve.com

How to Order

Both the dictionary/thesaurus and the translation dictionaries can be easily installed and run as stand-alone DOS programs on a flash card or on the internal drive of a 32 or 64 meg Palmtop. When used with Software Carousel or Super Software Carousel, these word tools are only a keystroke away.

"I am amazed at how functional WWW/LX is! I can actually get onto the Internet and extract data I need. Wonderful, useful, functional program. Amazing!"

—Ed Morgan

"What an absolutely superb program! Thanks for a really great piece of work. I really think all Palmtop users should go for this product. I really like how it runs from the Sys Mgr."

—Wade Robert

Requires 450K storage space on 100LX, 200LX.
PLEASE NOTE: We cannot install WWW/LX for you.

WWW/LX PLUS! Internet Software...............................$79.00
To upgrade your existing version of WWW/LX, please visit: www.dasoft.com

Great Used Software

ABC/LX Battery Monitoring Software
Hassle-free software that accurately monitors your rechargeable batteries and optimizes the fast-charge/trickle-charge functions to maximize battery life and performance. **$34.95**

ACE ←→ FAX
A small DOS fax program for the HP 100/200LX palmtop. Designed to give you basic ASCII facsimile transmission ability, along with fax reception of text, graphics, proportional fonts, photos and drawings. Takes only 200k for a full installation. **$14.95**

AppMAN
A DOS Application Runtime Manager to enhance your ability to run DOS programs from the built-in Application Manager provided with your palmtop. Designed to increase the capabilities of Application Manager in its afunction of launching DOS programs. **$14.95**

BATTman Software
A DOS Terminate-and-Stay-Resident (TSR) program that is automatically launched when it is installed in your AUTOEXEC>BAT file. It monitors all of the batteries in your 100/200LX and provided safe power management by utilizing a specific algorithm tailored to the type of batteries you are using. Supports Alkaline and Lithium replaceable batteries and Nickel-Cadmium and Nickel-Metal-Hydride Rechargeable batteries. **$14.95**

MAGNIFY!
A DOS Terminate-and-Stay-Resident (TSR) program that is designed to operate when the 100/200LX is in 640*200 graphics mode, typically when the built-in applications area active. Using its hot-key (Fn+1 by default) a window pops-up which magnifies the dots or ïpixelsî underneath it by 1, 2, 3, or 4 times. When the window is closed it remembers the size and position of the "lens" and associates it with the current screen. **$14.95**

myREMOTE
A program to turn your palmtop into a universal remote control for TVs, VCRs and other devices that use an infrared remote control. It must be ïtrainedî for each device and is not guaranteed to work with all equipment. **$14.95**

Palm Connect Software
Provides an automated file management, back-up and synchronization system for the data files you create on your palmtop. Features include: Revolutionary HotSync! between your palmtop and desktop PC; Record-level synchronization of Phone Book, Appointment Book, and Note Taker files between your palmtop and desktop PC; Automatic file restoration; File management so you an easily move and copy files between your palmtop and desktop PC; Easy data entry by using the full-sized keyboard of your desktop PC to enter data used by the Phone Book, Appointment Book, and Note Taker applications. **$14.95**

SWITCH!
A multi-purpose program to increase the utility of your palmtop. In comes in two parts: SWITCH!.COM which is used to launch the System Manager built-in applications (MEMO, PHONE, etc) and SWITCH! Environment that allows DOS applications that are SWITCHable to be task-switched with the built-in ones. The second part is SWITCH!EXM which is the Menu/Control Panel program that gives you complete control of your palmtop. **$14.95**

Software Carousel

Now you can switch between PHONE, your favorite game, and a dictionary as easily as you switch between MEMO and APPT! Your Palmtop can be...

Like 12 Palmtops in 1

Windows-like Flexibility!
Software Carousel is a must for your palmtop if you run DOS programs or if you have ever run out of memory because of large 1-2-3 or database file! Use Software Carousel to create up to 12 palmtop sessions. Have one devoted to a large 1-2-3 file, others to your favorite DOS programs, and another to built-in applications (where you can open a second 1-2-3 file). Switch between session by pressing the application key or hitting the Ctrl key and the number of the session.

Great with 8/32/64MB DoubleSpeeds or Flash Card!

Combine Software Carousel (and especially **SUPER Software Carousel!**) with the speed and memory of an Upgraded Palmtop, and you're talking about unleashing the full potential of your Palmtop! Works with Flash card memory too! (Not quite as fast.) And, of course, we offer a 30-Day Money-Back Guarantee so you can find out for yourself!

You'll need at least 1MB of flash or C drive space on 100LX, 200LX or 1000CX. Super Software Carousel comes on a CD with complete, easy-to-follow installation instructions and a concise electronic User's Guide.

Software Carousel...$47.97

"Everybody with enough RAM or a (fast) flash card should consider getting this 'cannot live without it' piece of software. Its value in terms of $ is just the price of a palmtop multiplied with the number of SC sessions you want to run. I have 10 sessions running, It's really that simple: SC just offers you up to 12 virtual palmtops in one physical. SC is the most important piece of software running on my LX!"
—Stefan Peichl

"I'm sorry I hadn't bought it years ago. It should be standard issue for every palmtop you sell!"
—Larry Feldman

"Absolutely fabulous. Quick, everybody run out and buy Software Carousel!"
—Larry Nielsen

SUPER Software Carousel

Like fast task-switching? Built-In Apps? How About 40 More!

Easy to learn, easy to use! Pre-configured with the very best freeware and shareware GAMES, UTILITIES & APPLICATIONS available for your Palmtop!

Just like Built-In Apps!

*Software Carousel Session 1 - Normal Palmtop built-in apps*

*Software Carousel Session 2 - Applications: Ready to go immediately!*

Software Carousel Session 3 - Games: Years of challenging fun!

PLUS: Clock and Palmtop Zoomer

Before   After

Zoom blows up any phone book, appointment book, or database item.

Super Software Carousel on FLASH — WE'LL INSTALL IT!

Insert PC Card containing Super Software Carousel in Palmtop. Reboot. You have forty new applications and games ready to go. Order a 10 MB or greater flash card with Super Software Carousel preinstalled.

Super Software Carousel on 10MB Card — **$99.97**

Super Software Carousel is fantastic ... NOT some loosely cobbled together set of ideas. You folks did the work, research, etc. and integrated a LOT of things that I never would have taken the time to figure out and do; then made it pretty darn easy to install. That's my long version of: "THANK YOU!!! Worth Every Cent!" [and, yes, you can quote me] —Timothy Raymond

What makes Super Software Carousel *SUPER?*

It begins with Software Carousel.

But we've done all the work and provided the BEST available freeware and shareware in one pre-configured package! All easy-to-use programs that will tremendously expand your palmtopping power.

SUDDENLY your palmtop is loaded with all the best freely available software!

SUDDENLY you have so many new Games, Programs and Utilities that it will take you months just to explore it all!

SUDDENLY you can do all the things you always wished you could, from spellchecking to hypertext viewing to playing chess. And far more!

And it's just the beginning! You can add all the programs to Software Carousel that your palmtop's memory will bear. (You can delete programs too, if you like.)

It's a quantum leap in HP Palmtop computing, and adds whole new dimensions to having a PC in your Pocket!

Installation: Fast and Painless!

Super Software Carousel comes on CD. If you are upgrading or buying a new or used palmtop, we can install SSC before we ship. Or, you can easily install Super Software Carousel yourself. Simply transfer mirror subdirectory from the CD to your palmtop, make a few minor file edits, and you're ready to go!

If you'd like, you may send your palmtop in to Thaddeus to have SSC installed free (normal shipping applies.)

Everyone who orders Super Software Carousel will receive the CD and complete documentation.

System Requirements

Includes the complete version of Software Carousel, plus all additional software. Runs on HP 100LX, 200LX, or 1000CX on flash disk or in system RAM (C drive). Full package requires 5 meg.

SUPER SOFTWARE CAROUSEL comes on a CD with complete, easy-to-follow installation instructions and a concise electronic User's Guide. If you have Thaddeus Computing install it while your Palmtop is with us (free installation) you'll still receive the CD. (You can even send your Palmtop just for the free Super Software Carousel installation.) Or pack your flash card safely* and send it to us with about 5 MB of free space.

Super Software Carousel..........................**$83.97**

*Use padded envelope. Write "Please hand stamp." Insure it.

Knowledge Product!

is really 3 GREAT PRODUCTS in 1...
